SPACE REGULATORY BOOTCAMP 2024: ELEVATING THE SPACE INDUSTRY THROUGH SPONSORSHIP

ABOUT THE EVENT:

The Space Regulatory Bootcamp, set for March 4-7, 2024, in Albuquerque, NM, is more than a training session. It's a hub for learning, networking, and growth. Specialists from across the nation will converge to share insights on export controls, telecommunications, government contracting, and cybersecurity, thereby ensuring our industry's robust and informed advancement.

ACSP'S IMPACT:

Past events have seen remarkable success, with positive feedback from industry giants and newcomers alike. By joining forces with ACSP, your organization not only gains visibility but also becomes part of an influential movement shaping the space industry's future.

TESTEMONIALS:

"My office supported the first Space Regulatory Bootcamp hosted [by ACSP] because it was badly needed in the new space industry... no one else was providing a service even remotely like this as I learned through my significant dealings with every Space venture firm, financial provider and government policy office. It was an extremely valuable and much-needed opportunity for new and current participants in the space industry."

**GABE MOUNCE, US SPACE FORCE
DIRECTOR, TECH ENGAGEMENT OFFICE
AIR FORCE RESEARCH LAB - NEW MEXICO**

"The Bootcamp provided an immersive platform to delve deep into the dynamic world of space policy, connecting with experts and fellow enthusiasts passionate about shaping the future of space exploration. The sessions were insightful, and the discussions were nothing short of inspiring. I had the opportunity to share my thoughts and insights during the event, contributing to the vibrant dialogue around space policy."

MUSTAPHA AGBADI, ATTENDEE

"Experiences like this are valuable to my professional development. I am very grateful for the chance to participate among industry leaders in the field. As a student, I found the industry perspectives helpful for framing my research projects and better understanding of the current state of space law and policy."

CAYDEN FAZIO, ATTENDEE
